The boutique project Kata Gardens was built in 2020 and consists of three three-storey buildings, each of which has different types of apartments: apartments with spacious terraces and penthouses with fully equipped roofs for relaxation, swimming pools and sea views. Cosy buildings of Kata Gardens are literally buried in greenery, they are designed in traditional Thai style. The elegant design of the apartments, using a large amount of natural wood and with great attention to detail, will not leave you indifferent.

### **Infrastructure**

Small, Kata Gardens has all the infrastructure of a good hotel: two communal swimming pools, an equipped fitness centre, a reception, its own restaurant and underground parking.

### **What's nearby**

The huge advantage of the project over the others is its ideal location! Just a couple of minutes walk - the incredible beauty of Kata Noi beach, with the purest turquoise water and white sand. If you walk a little in the opposite direction, you will find yourself on Kata Beach - one of the most popular beaches in Phuket. In addition, the entire tourist infrastructure, everything you can wish for on vacation - massage, excursion bureaus, restaurants and cafés, bars, shops in a huge variety are within walking distance. The island's famous Mom Trees restaurant is located directly opposite Kata Gardens.

### **For whom is it suitable**

The apartments are very spacious and are ideal not only for relaxation, but also for permanent residence. Popular with people of all ages and all nationalities, Kata Gardens is in the mid-range and saves money when compared to nearby hotels.
