The most recent endeavor from the globally renowned Laguna Phuket, Laguna Lakelands, unfolds within a sprawling square kilometer of lush hills, forests, and lakes. Beyond being a mere residence, it's a unique community where distinct themes—Hillside, Orchard, Forest, and Lakeside—maintain their individual charm within a unified, nature-centric setting. Connected by a 15 km network of trails, the development boasts spacious apartments featuring rooftop sky parks and luxurious waterfront villas set amidst expansive landscapes of rainforests, botanical gardens, and tranquil lagoons. A hillside adventure park, sports and aquatic complex, along with a lively town center, form the core of this community. Adding to its allure is a private beachfront club, completing the ensemble of Laguna Lakelands. Comprising 114 units spread across 7 floors, this project was crafted by the same developer responsible for Laguna Seaside, Laguna Beachside, and Laguna Park 2.
