The Trichada complex consists of 23 luxurious two and three bedroom villas with a private pool. The elegant interior design instantly disposes of a relaxed atmosphere of comfort and tranquility in a real temple of luxury and style. Panoramic windows and sliding doors allow you to enjoy beautiful views and cool breezes. The layout of the villa ensures privacy in all bedrooms. The master bedroom in the house is the most private and has a large bathroom with walk-in closet and bathtub. 2 more bedrooms are on the opposite side. One bedroom with a large double bed and its own entrance to the bathroom and another bedroom, it is smaller with a single bed, more suitable for a nanny or a child.

The developer of the project is the main shareholder and director of the famous luxury complex Sai Taan, which has 75 luxury villas built in 10 years.

The complex is located 2 minutes' drive from the main entrance to the 5 \* Laguna Resort, where you will find world-class restaurants, a golf club and a magnificent beach.
