Set at the tip of the peninsula, Amanpuri's Seven Bedroom Ocean Front Villa offers sweeping views over the Andaman Sea, with plenty of outdoor space to entertain. Ideal for families, groups of friends or colleagues, the villas have seven separate king-sized bedrooms built around a central swimming pool and expansive sun terrace with living and dining salas, perfect for evenings spent sharing sundowners. While the villas are meticulously designed to make the most of their spectacular setting, inside, the spacious interior ensures ample space and privacy for each guest, with a living room and dining room for socialising. Each villa also has its very own Thai chef and dedicated housekeep to ensure every aspect of the stay is carefully considered.
